

Submit cases to EURORAD, the Imaging Database of the EAR (<http://eurorad.org>)

Dear colleagues,

We strongly encourage you to submit case reports to EURORAD, the Imaging Database of the EAR(<http://eurorad.org> ). This database is unique and consists of case reports anonymously peer-reviewed by the best academic European radiologists.

1. We would ask you to start submission by sending didactic and elementary cases, intended for students in medicine (e.g.: brain metastasis, bone fracture, pulmonary tuberculosis). Emphasis should be put on basic images and semiology. Cases can also be intended for residents in radiology. Finally very rare cases (such as those usually reported in journals) are also welcome.
2. The cases are mainly clinical reports, but you can also provide anatomical cases or research cases (a new contrast medium, a new MR sequence).
3. Submission is very easy if you follow the instructions provided on the database (we encourage you to first print the 'Instructions to authors' located in the 'Submission' part of the database). Submitting the first case may take 30 minutes, but the learning process is very fast. It will take an average of 15 minutes, once you have prepared the text and images.
4. For every accepted case the institutions or the individual radiologists submitting cases will be refunded with 10 to 40 €
5. The title and authors of accepted cases will be published in European Radiology.
6. The authors of the best cases will be rewarded during each ECR, starting with ECR 2000.

If you have any questions or need support, please e-mail [support@eurorad.org](mailto:support@eurorad.org).

Prof. Roberto Passariello  
President, EAR

Prof. Albert Baert  
EURORAD Editor-in-Chief

Prof. Robert Sigal  
EURORAD Project Director

Dr. Davide Caramella  
EURORAD Scientific Director
